

20th June 2012

Dear Supporter,

I am writing to offer you the opportunity to subscribe to the Oxford United programme for the 2012-13 season.

The good news is that we are maintaining the same number of pages as last season and we will be introducing some exciting new design features, while keeping the cover price for home programmes the same at £3.00 per issue.

Despite the increase in postage costs, we have been able to keep the price to subscribe to all League and Cup home programmes for this season the same as last year at £96 including postage. We are again offering the option of a reduced-rate subscription for those who are able to collect their programmes from the ground. This will remain £72 for the season.

The extra good news is that for the first time ever home programmes will be sent to subscribers as soon as they come off the press, meaning that they should arrive on the morning of the match (post permitting) for Saturday games.

The price to subscribe to all away programmes will also be £96 including postage, which will ensure that you receive a copy from every away League and Cup game which the U's are involved in. Again we can offer a post-free option at a price of just £75.

If you choose to subscribe to ALL programmes, home and away, you can take advantage of a special discount which means the price will be £185 with postage or £135 if you would rather collect your programmes from the stadium.

All those who subscribe to the home programmes by 13th July will also receive the programmes from the pre-season games against West Ham United and Cardiff City.

All those who subscribe to the away programmes by 13th July will also receive the programmes from the pre-season friendlies (including the US tour), subject to availability.

To subscribe, please complete the form overleaf and return it to: Programme Subscriptions, Oxford United FC, Grenoble Road, Oxford, OX4 4XP.

We look forward to your thoughts on the programme and thank you once again for your support.

Best Wishes

Martin Brodetsky
Programme Editor
